

# Creating the Future with Engineering

TGE Gas Engineering GmbH is one of the world's leading engineering contractors for the design, procurement and construction of gas handling and processing plants throughout the gas chain – from well head to customer supply.

As part of the CIMC Group, having over 100 subsidiaries and nearly 58,000 staff globally, TGE is in the position to provide the best solutions for its customers worldwide.

For the further expansion of our international team in our Bonn office we are seeking with immediate effect

## Senior Cost Engineer/ Senior Estimator (m/f)

- Preparation of cost estimates for various types of proposals and projects (EPC, EP, ...)
- Review of estimates for completeness and accuracy within the project scope of work
- Working together with discipline engineers to assure the compatibility within the project scope of work
- Application of estimating techniques in the preparation of cost estimates
- Close collaboration with the Project Controller/Scheduler
- Maintenance and enhancements of the required tools und standards

You have a final university degree (technical degree course or industrial engineering), have at least seven years professional experience, preferably with plant engineering, are well grounded in MS Office (in particular Excel) and have a good command of written and spoken English. You have strong communication skills, the ability to assert yourself and focus on the essential.

TGE provides interesting and varied activities with a high degree of personal responsibility, excellent career perspectives and attractive social benefits.

If you are interested in working in an international team within a growing market, we look forward to receiving your application in writing (e-mail appreciated) with the reference „Senior Estimator“.
